

Component	Details	Comment	Marks Awarded	Marks Available
Design	Does the design provide a framework for implementing a number of different players?	Nicely done	10	10
	Are the players themselves well-designed: is it clear from the design how the players decide on their moves?		10	10
Implementation	Is the code functional able to play a game of dominoes? (Even if it doesn't play it well, so long as there are at least two players that differ from each other and the provided players.)	Outstanding work. Excellent functional style, first class comments, good players.	20	20
	Is the framework well-coded using good functional style?		10	10
	Is the code well-presented using clear and consistent layout, with good choice of function and parameter names?		10	10
	Is the code well-documented with comments <i>where necessary</i> ? Remember, you should aim for code that is largely self-explanatory. Do not write comments that are not necessary, but <i>do</i> comment code that is not self-explanatory.		10	10
Results	Are there comparative results for the players?	Very nice	10	10
	Are there clear differences in the results, with a clear explanation?		10	10
	How smart are the players? How much knowledge about the game do they capture?		10	10
Total			100	100
